G Vigilant Firehouse, (D.C.-98)

Structure

1066 Wisconsin Avenue, Northwest. A brick, two story, gable roof firehouse with simple lines and little trim. Two front fire equipment doors with three windows above - six over six light double hung with wooden blinds. The front of the gable roof faces the street with a cupola. The interior is simple with one room for each floor of the main building and each addition. There were wings added to the structure after it became a commercial building in the late 19th Century. The building is the second firehouse to stand on the site & was built 1844. Drawing sheets (1964), data pg. (1964); Exterior photos,
